The R Project for Statistical Computing

Getting Started

R is a free software environment for statistical computing and graphics. It compiles and runs on a wide variety of UNIX platforms, Windows and MacOS. To **download R** (<https://cran.r-project.org/mirrors.html>), please choose your preferred CRAN mirror (<https://cran.r-project.org/mirrors.html>).

If you have questions about R like how to download and install the software, or what the license terms are, please read our answers to frequently asked questions (<https://cran.R-project.org/faqs.html>) before you send an email.

News

- Kalibera Family Fund (/foundation/kalibera.html) accepts donations until the end of 2026.
- **R version 4.6.1 (Happy Hop)** (<https://cran.r-project.org/src/base/R-4>) has been released on 2026-06-24.

- **R version 4.5.3 (Reassured Reassurer)** (<https://cran.r-project.org/src/base/R-4>) (wrap-up release) was released on 2026-03-11.
- The **useR! 2026** (<https://user2026.r-project.org>) conference took place in Warsaw, Poland, July 7-9.
- You can support the R Foundation with a renewable subscription as a supporting member (<https://www.r-project.org/foundation/donations.html>).
